Category:		Estimated time:	0.00 hour
Target version:	RA1: Analysis of artifacts in synthetic speech		

Description

Voice: Stanislav

Description:

- Word *válel* sounds like *válil* in the sentence "*Válel jsem se*".
- The phone [e] was made up from two parts - the left half from a word *válečnickem* and the right part from a word *přelstít* (use WebProkus for more details).
- Listening to the words in the source utterances, in both cases I hear rather [e].

History

#1 - 27.04.2016 23:22 - Matoušek Jindřich

Similar phenomenon occurs also for voice Jan.

#2 - 08.02.2017 10:10 - Matoušek Jindřich

Similar problems are perceived also in other voices.
